QUALITY PROMISE

Octovia Technologies .

We go the extra mile for you to do ordinary things in unique ways! With the Quality promise we can be assured that you always get what was promised to you and more, always. With our Kaizan approach to quality we ensure we always improve with every step.

We Deliver Value By Delivering Quality!

Our leaders along with a dedicated independent qualitycontrol team monitors and alerts at every step of our production.

Three principles dictate the quality analysis & parameter -

Fit for purpose: The quality analysis begins right from the planning stage ensuring that the product should be suitable for the intended purpose.

Right first time: We believe even a small glitch as cost us client or even worse costour client their brand equity, we ensure that anymistakes should be eliminated before deployment.

Total Quality management (TQM): We believe quality should be reflected in not only the end product but the processes and the people that are involved with the development of the product.

- We continually invest in training our manpower with the latest tools, technologies, tactics and trends of the industry

- Our customer focused quality management approach enables us to deliver at every step

- We take industry best practices and standard and take them to the next level

- Our QMS techniques include –

  - functional & regression testing
  - GUI and Usability testing
  - Performance benchmarking
  - Security testing
  - Systems integration control and much more.

Key Processes

- Defect tracking
- Process monitoring
- Risk management
- Configuration management
